### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Meyer on 03/17/2005.

2. The application has been amended as follows:

- Claim 24 has been canceled.

3. Claim 24 has been canceled in order to allow the application to proceed to issuance with respect to the claims indicated as allowable in the telephone interview of 3/17/2005.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 9 is the limitation of applying indicia to the sheet from a printer movable in the first direction relative to the sheet where the printer is movable at a second velocity, imparting lines of termination to the sheet from a blade movable in the first direction relative to the sheet where the blade is movable at a third velocity, varying one of said second or third velocities independent of the other to maintain the spacing within a desired range, where a path length of the

moving sheet between the printer and the blade remains substantially constant, in combination with the other claimed steps.

The primary reason for the allowance of claim 18 is the limitation of applying indicia to the sheet from a printer movable in the first direction relative to the sheet where the printer is movable at a second velocity, imparting perforations to the sheet from a perforator blade movable in the first direction relative to the sheet where the perforator blade is movable at a third velocity, imparting chop off cuts from a chop off blade movable in the first direction relative to the sheet, varying said third velocity independent of said second velocity, or varying movement of said chop off blade independent of said second velocity to maintain said spacing of perforations and said chop off cuts within a desired range, wherein a path length of the sheet remains substantially constant between said printer and said chop off blade, in combination with the other claimed steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
